Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. The response filed on 02/28/2002 cancelled claim 18, amended claims 1-9 and added new claims 19-23.

Response to Arguments

2. Applicant's arguments filed 02/28/2002 have been fully considered but they are not persuasive.

Applicant argues that Peercy does not use color temperature in the data conversion process of converting from one light source to another light source. However, in forming the data for one light source based upon color temperature Peercy has in effect used the color temperature in the conversion from one light source to another light source, column 10 lines 55-63. Thus, at least indirectly Peercy uses the color temperature when converting data dependent upon the first illuminating light into data dependent upon the second illuminating light.

Applicant argues that Peercy does not generate data indicating a proportion of synthesis of conversion data for selected illuminating lights according to a manual instruction input by the user. At column 8 lines 55-61 Peercy describes the user selecting light source that have corresponding spectral distributions.. The value describing the spectral distribution of each light source would control the proportion of the converted data that is attributed to the selected light source. Thus, at least

Art Unit: 2672

indirectly, Peercy's manual input by the user controls the proportion of synthesis of selected light sources.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1-9 and 19-23 are rejected under 35 U.S.C. 102(e) as being anticipated by Peercy, U.S. Patent No. 5,710,876 for the reasons given above and for the reasons given in paper no. 16.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2672

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
